

Magnolia Health Plan

Biopharmaceutical Pharmacy Program

Magnolia Health Plan (Magnolia) works with a number of specialty pharmacy providers to provide biopharmaceuticals and injectables. Most biopharmaceutical and injectables billed for more than \$250 require a prior authorization (PA) to be approved for payment by Magnolia; however, PA requirements are programmed specific to the drug as indicated in the table below. Since the list of drugs requiring PA changes over time (due to additions and new drug arrivals), the \$250 amount is used as a reference gauge to help in determining whether to apply for PA.

Magnolia works with a number of specialty pharmacy providers. Specialty pharmacy medications require PA. Prescribers should submit requests for specialty medications to US Script on the Magnolia/US Script Specialty Pharmacy Prior Authorization Form.

Follow these guidelines for efficient processing of your Specialty Pharmacy medication PA requests:

1. Complete the Magnolia/US Script Specialty Pharmacy Prior Authorization Form that can be found on the Magnolia website at www.magnoliahealthplan.com.
2. Fax to US Script at **1-866-399-0929**.
3. Once approved, US Script notifies the prescriber by fax..
4. If the clinical information provided does not explain the reason for the requested PA medication, US Script responds to the prescriber by fax, offering PDL alternatives.
5. For urgent or after-hours requests, providers should contact the US Script Pharmacy Help Desk at **1-800-460-8988**.

Below is a list of products that specialty pharmacy providers can provide to Magnolia members. Due to changing market conditions this list is not all inclusive. If a provider wishes to use office stock or if a drug is not listed on the product list below, they can fax requests to the Magnolia Pharmacy Department at 866-912-6285

Prescriber Guideline	Trade Name	Ingredient	Oncologist & Hematologist Override (Y/N)
J9264	ABRAXANE	PACLITAXEL
