## Find out about your benefits

**Your benefits are the services Magnolia Health Plan covers.** It's important that you understand your benefits. You can find out more about them in the member handbook. If you don't have a copy, we can send you one. Just call us at **1-866-912-6285**, Relay **711**.

We can also help you make an appointment. We can help you find transportation to appointments. If you can't get to an appointment, let the provider's office know as soon as possible.

We offer free interpreter services to members. An interpreter can help you find out more about your benefits. An interpreter can also help you during medical appointments. Call Magnolia Health Plan Member Services at **1-866-912-6285**, Relay **711**.

## What are your wishes?

It can be hard to talk about end-of-life care. But it's important to talk about it now. That way, your loved ones will know what your wishes are if you become unable to speak for yourself.

An advance directive is a document that says what treatments you do or do not want. Once you have a directive, there's still more to do. Make sure your doctor puts a copy in your file. Make sure your loved ones know where to find a copy.

You can find more information on advance directives at [caringinfo.org](http://caringinfo.org).

## Find us online

Magnolia Health Plan is online at [MagnoliaHealthPlan.com](http://MagnoliaHealthPlan.com). Our website has lots of helpful information. You can find a copy of your handbook. You can look for a provider.

Use our secure member portal to:

- Change your primary care provider
- Update your personal information
- Find pharmacy benefit information
- Send Magnolia Health Plan a message

Log in to the member portal at [MagnoliaHealthPlan.com](http://MagnoliaHealthPlan.com). Call **1-866-912-6285**, Relay **711** if you have questions.

## Are you **at risk for diabetes?**

**Type 2 diabetes is a condition that makes blood sugar levels higher than normal.** This happens when your body doesn't use insulin the right way. Some people are more at risk for type 2 diabetes. This includes people who:

- Are overweight
- Are over age 45
- Have family members with diabetes
- Have high blood pressure
- Are African-American, Alaska Native, American Indian, Asian-American, Hispanic/Latino, Native Hawaiian or Pacific Islander

If you have type 2 diabetes, you should see your provider several times a year. Your provider can make sure your diabetes is under control. You may need to watch what you eat. You may need to take pills or give yourself insulin shots. It's important to treat your diabetes. Untreated diabetes can hurt the eyes, kidneys, nerves or heart.

Magnolia Health Plan has health management services. We can help you live with chronic conditions like diabetes. Call **1-866-912-6285**, Relay **711** to learn more.

### Are you a new member?

Do you have questions about your current plan and benefits? Visit [MagnoliaHealthPlan.com](http://MagnoliaHealthPlan.com) to locate the member handbook. It has many details about your health plan.

## Signs it's more than the 'blues'

Everyone feels "blue" sometimes. Job stress, money problems and other life issues can make us sad. But when feelings of sadness last, it may be more serious. You could be depressed. How do you know if you are depressed? Ask yourself:

- Is my mood keeping me from doing my job?
- Is it affecting my relationships?
- Have I felt sad for more than two weeks?
- Do I feel worthless or hopeless?

Do you think you are depressed? Your provider can help. If you are thinking about hurting yourself or others, call **911** or go to the emergency room. Call Magnolia Health Plan if you need help finding a provider.

## ER or urgent care?

**When you are hurt or sick, you want to feel better fast.** But do you need urgent care? Or should you go to the emergency room (ER)?

**Urgent care is for medical problems that are not emergencies. Go to urgent care when your doctor's office is closed. Medical problems treated at urgent care include:**

- High fevers
- Sprains
- Flu symptoms
- Earaches
- Vomiting

**The ER is for conditions that need to be treated right away. These could be:**

- Broken bones
- Thoughts of harming yourself
- Chest pains
- Trouble breathing
- Weakness or numbness on one side

If you need medical care right away for a life-threatening condition, call **911**. Call an ambulance if you are having a heart attack or a stroke. Treatment can begin on the way to the hospital.

## We are **here to help**

**Magnolia Health Plan wants to help you get and stay healthy.** We can help you with many things. We can help you:

- Get a paper copy of anything on our website, **MagnoliaHealthPlan.com**
- Get information about your health
- Find a doctor or another provider
- Get language services if you don't speak English
- Get a new copy of your member handbook
- Get a new ID card

Call Member Services at **1-866-912-6285**, Relay **711** to learn how we can help you. Or visit **MagnoliaHealthPlan.com** for more information.

## The right care for you

Getting care that is right for your age and your health needs is important.

When your kids are young, they see a doctor who knows all about kids' health. That doctor is called a pediatrician. But when they grow up, their health needs change. That is when it is time to move to a doctor who knows about adult health.

Your doctor and your health plan can help you and your child make this change. If you need help finding a new doctor, talk with your doctor. Or call Member Services at **1-866-912-6285**, Relay **711**.
